Subprocessors

Version 1.0 — Effective August 26, 2026

UAV Data LLC

UAV Data, operated by UAV Data LLC, relies on the following service providers to operate. Each may process customer data only as needed to provide its function. We update this page when providers are added or removed.

Provider	Function	Data involved
Auth0 (Okta)	Authentication and sign-in	Name, email address, login activity
Cloudflare	Content storage (R2) and network infrastructure	Uploaded customer content, request metadata
Microsoft Azure	Application hosting, database, and transactional email	Account data, application data, email addresses
Stripe	Payment processing and subscription billing	Billing details and payment card data (held by Stripe)

See our Privacy Policy for how customer data is handled.
